About this item

- **MADE OF THE BOROSILICATE GLASS** - All glass was not created equal. Most glass storage bottles for the kitchen are made of ordinary soda lime glass, which chips easily and cannot withstand extreme heat or cold. Borosil's entire storage range is made of the best borosilicate glass, which is extreme temperature resistant from freezer to oven and extremely tough - so it can withstand daily use in your kitchen.
- **MICROWAVE & OVEN SAFE** - Our borosilicate glass storage bottles can be used for reheating in the microwave or baking in the oven. The bottles can be heated up to 350°C higher than the highest setting in your oven.
- **STAIN & SMELL PROOF** - The glass bottles are non-porous so they will not absorb stains or odours, really helpful if you're storing curries and dals
- **FREEZER SAFE** - Where ordinary glass can crack when frozen, borosilicate glass storage bottles can be used to freeze purees, chutneys, meats and baby foods.
