## About this item

- **Stylish Design** The pure black 3D curved bezel-less glass is crafted into seamless shape with smooth lines from every angle, achieving an exquisitely, incredibly stylish look and feel.
- **Ultra Slim Metal Body** The 3D glass and polished stainless-steel back perfectly fused together, making the watch sleek and ultra-slim. With only 9.1 mm thickness, it's exceptionally comfortable to wear day and night.
- **Multiple Design Collection** From metal, leather to fluoroelastomer, pick your favorite band to match your outfit. Exchange it within seconds and you are ready to go—whether for a formal conference, a drink with friends or a weekend workout, giving you the perfect look for any occasion and personal expression.
- **Blood-oxygen saturation measurement** SpO2 is an important indicator of health, especially in high-altitude and low-oxygen environments or while performing high-intensity sports . With Zepp E, you can measure your current blood-oxygen saturation instantly from your wrist.
- **Sleep Quality Monitoring** Monitor light sleep, deep sleep, rapid eye movement (REM), and awake time. It also provides you a score on sleep quality and breathing quality. It even monitors your 20-minute nap during the day.
- **Health Assessment System** The Personal Activity Intelligence turns the sophisticated data on heart rate and activities into a single metric. It allows you to intuitively understand the physical state from an easy-to-understand score.
- **11 Sports Mode** Outdoor Running, Treadmill, Walking, Outdoor Cycling, Indoor Cycling Elliptical, Pool Swimming, Climbing, Trail Running, Skiing, Freestyle, with 5 ATM Water Resistance.
- **7-day Batter Life** Zepp E endures for up to 7 days in typical usages mode for a single full charge, which free you from the daily recharge.

- **Customize Your Watch Face** The watch can always display the time on the screen with dozens of always-on patterns available. The four of default watch faces integrating customizable modules give you the freedom to control the information on your display.
- **Notifications and alarms** You will also receive notifications when your heart rate exceeds the recommended limit. Smartwatch receives notifications for incoming calls, emails, messages and other applications without having the phone; sedentary reminders if you've been sitting too long.
