About this item

- **MADE OF THE BOROSILICATE GLASS** - Borosil's entire range of mixing and serving bowls is made of the borosilicate glass, which is extreme temperature resistant (-20°C in the freezer to 350°C in the oven) and extremely tough - so it can withstand daily use in your kitchen
 - **MULTIPURPOSE BOWLS WITH LIDS** - You can use these glass mixing bowls to serve dals, subzis and curries, refrigerate leftovers, reheat meals in the microwave, bake in the oven, mix batters for cakes and pancakes, whisk eggs, set puddings in the fridge, etc The glass mixing bowls comes with lids, so you can keep your food covered and safe, while serving or storing
 - **SCRATCH RESISTANT** - Scratch resistant borosilicate glass ensures your serving bowls look new even after years of daily use
 - **MICROWAVE & OVEN SAFE (NOT THE LIDS)** - Our borosilicate mixing bowl can be used for reheating in the microwave or for baking in the oven It can withstand temperatures up to 350°C, higher than the highest setting on your oven
 - **EASY TO CLEAN** - As the glass does not absorb stains, it cleans with just a swipe It's also dishwasher safe
-
